Overview

This TF red card is specially designed for IoT applications in hash environments. It is highly durable, supports a wide temperature range of -25℃ to 85℃ and health monitoring, and meets the needs of all-day video and storage.

Features

- A1 performance, UHS Speed Class 3, Video Speed Class 30.
- Stable and durable to meet all-day storage requirements.
- Support work at -25℃~85℃, not afraid of harsh environment.

Specifications

Model	TF-128G-MT
Hardware Parameters	
P/E cycle	3000
Read Speed	95MB/s
Storage particles	MLC/TLC
Write Speed	70MB/s
Capacity	128GB
Working Temperature	-25~85℃
