

ITS Overseas single-lane speed radar

RD106@A-1-OS

Features

- Support two-way trigger, retrograde capture
- Support formal and side loading;
- Adopt 24GHz MMIC technology, superior performance;
- High gain and low sidelobe microstrip antenna design technology can effectively avoid adjacent channel target interference.;
- Accurate ranging and velocity measurement for single targets, accurate positioning;
- High-precision fixed-point capture, the position error is within 1 m, and the capture rate is above 99%.;
- Strong environmental adaptability, and the detection performance is not disturbed by external environment such as light, dust, rain and snow.
